Unparalleled value and protection.

WHY IT WORKS

The Vacation SafeGuard program is simple yet effective because of the structure in place to literally safeguard the outcome for you as a member. A percentage of your purchase today is placed in an investment pool that is held in trust, and managed by Clariant Capital Corporation, a Toronto-based financial firm who are experts in Insured Structured Funding and act as the Trustee for the Vacation SafeGuard program.

JONES BROWN

Unique to Vacation SafeGuard, that trust is then insured by Lloyds of London through Jones Brown, our representing insurance broker who is also based in Toronto, against any unlikely variation in the growth of funds, ensuring that each member is guaranteed to receive 100% of their initial purchase price back at the end of their specified term subject to having complied with the obligations under the terms and conditions of the program. This is what sets Vacation SafeGuard apart from anyone else, we are the worlds first, and only, loyalty cash back program protected by insurance, and the only company that can absolutely guarantee your funds will be available then the time comes.

We are proud to offer you the only option where you can benefit from shared ownership for many years to come and be guaranteed to receive your full, initial purchase price back just for using and enjoying your membership.
