# Unparalleled value and protection.

## □ WHY IT WORKS

The Vacation SafeGuard program is simple yet effective because of the structure in place to literally safeguard the outcome for you as a member. The small percentage of your purchase price is added to our pool of funds that is held in trust and managed by Clariant Capital Corporation, a Toronto-based financial firm who are experts in Insured Structured Financial Programs and act as the Trustee for the Vacation SafeGuard program.

**JONES BROWN**

Unique to Vacation SafeGuard, that trust is then insured by Lloyds of London through Jones Brown, our representing insurance broker who is also based in Toronto, against any unlikely variation in the growth of funds, ensuring that each member is guaranteed to receive 100% of their initial purchase price back at the end of their specified term. Not subject to any market fluctuation or variables, your funds are absolutely guaranteed at the end of your membership term.

**The only program where  
you can benefit from your  
vacation membership and  
be guaranteed to receive  
your full initial purchase  
price back just for staying  
loyal to the brand you  
bought from.**
